

Instructions:

You are a SOC Analyst at Global Logistics. Emily Nguyen, a member of the marketing team, recently had trouble signing into her Dropbox account after trying to access it for the first time in months and reached out to her manager for assistance. The next day, she received an email that claims a password change request was made for her Dropbox account. The email includes a link for resetting her password, but Emily is unsure if the request is legitimate. Concerned about potential phishing, she has forwarded the email to the security team for analysis.

Using what you've learned within this domain, perform a detailed email analysis on the challenge2.eml file to answer the report questions below.

Challenge File:

01_Phishing_Analysis/Challenges/challenge2.eml

Q1 Based on the contents of the email header, what is the full date and time of the email delivery?

Sun, 12 May 2024 04:10:52 +0000

Q2 What is the subject of the email?

Reset your Dropbox password

Q3 Who was the email sent to?

emily.nguyen@glbllogistics.co
