

Instructions:

You are a SOC Analyst at Global Logistics. The SOC received an alert about a quarantined email that was flagged by the company's email gateway solution. The email was sent to Emily Nguyen, a member of the marketing team, from her friend Alexia Barry. As the analyst assigned to this ticket, your task is to review the email to determine if the email is safe to release to Emily's inbox or if further action is needed.

Using what you've learned within this domain, perform a detailed email analysis on the challenge3.eml file to answer the report questions below.

Challenge File:

01_Phishing_Analysis/Challenges/challenge3.eml

Q1 Based on the contents of the email header, what is the full date and time of the email delivery?

Tue, 14 May 2024 23:31:08 +0000

Q2 What is the subject of the email?

You're Invited!

Q3 Who was the email sent to?

emily.nguyen@glbllogistics.co

Q4 Based on the sender's display name, who does the email claim to be from?

Adam barry

Q5 What is the sender's email address?

abarry@live.com
